EXPERIENCE

Prince Martial Arts, 330 US-22, Bridgewater, NJ — Assistant Instructor

June 2020 - PRESENT

When I had begun this job, it was just a voluntary act and I helped my karate instructor with managing the kids taking karate. My karate teacher noticed that I had been putting in at least 5 hours per week taking classes so he decided I would be a great help in the dojo. I usually help my karate instructor teach up to 20 kids per class. I also work 4 hours for this job, meaning I help lead 3 classes, and then I take my class, while also taking attendance of that class. Now, I get paid as if it were a job and I help clean the dojo, as well as manage the financial payments made by the student's parents. I also help with the closing of the dojo.
